Map Plus – BobT's WV Maps - Install Process

Get the App:

- Go to the Apple App Store on your phone and search for Map Plus and download

- The app gets installed as a full version initially, but you'll start seeing adds after a few days. It does not affect the usability of the app. The app is worth the $3.99 to get rid of them though.

Open Map Plus and close out all popups and then exit the application.
